The Palmetto Palace

Our Mission

To enhance the quality of life for individuals and their families facing a life-threatening illness....

What is Palmetto Palace ?

The Palmetto Palace is a non-profit 501(c)3 charitable organization, providing patient care to critically ill adults including supportive services to families/caregivers with high-quality, affordable accommodations and meals. Our innovative holistic programs are all led by dedicated professional staff essential to providing emotional support, education and hope for families and their loved ones.

The Need

Over the past 10 years there has been a significant increase cost for families to meet the many non-medical expenses that occur while a loved one is hospitalized. With 500 hospitality houses world wide operating at a 98% capacity, families are left to sleep in the hospital waiting rooms or their cars to be near loved ones.

THE PALMETTO PALACE

Support Services

At Palmetto Palace our services include but not limited to methods to create and/or enhance the following:

- Community Collaborations
- Educational Workshops or Conferences
- Organize and support events that recognize National Critical Care Awareness events in May
- Professional led support groups, including stress reduction classes
- Empowered by knowledge, strengthening by action and sustaining by community support and advocacy
